SCORECARD DIRECTIONS

When on page 1, select "Current Page" when printing scorecard to avoid printing these directions.

After the scorecard is printed, take the 8.5 x 11" paper and fold it in half at the bold dotted lines (words to the outside).

Then fold it in half again at the dotted lines. Each fold will contain one Archer and two 14 target scoring areas. Easy to carry when folded.

One Archer can use the scorecard for eight rounds or four Archers can use one score card for 28 targets each. 28 is more of a standard than 14.

Scorecard may also be printed on both sides of one sheet of paper.
